

Video Title: Education Award - Deafblind UK

Speaker: At Deafblind UK, we believe that all children should be given an equal chance to learn and have a meaningful education at a level that suits them regardless of any condition or disability.

Winning this prize means that we can create a video to show teachers how to make their classrooms more accessible.

It will show the quick wins for any teacher or teaching assistant can do to make their lesson easily available to anyone in their classroom. Together, we are creating the stars of the future. From everyone at Deafblind UK, thank you.
